Yusuf Anıl Yazıcı

Şişli, Istanbul | +90 501 061 89 75 | yusufanilyazici@gmail.com

Education

- **Boğaziçi University, Computer Engineering** (2021–2026)
- Sakarya Cevat Ayhan Science High School (2017–2021)

Experience

- **Junior Associate Software Developer, Turkish Technology** (Aug 2026 – Present)
  - Develop full-stack enterprise web apps: Java Spring / Spring Boot and PostgreSQL backend, Vue.js frontend.
  - Integrate SOAP web services into internal systems while holding to high code-quality and review standards.
  - Collaborate with cross-functional teams to deliver scalable, maintainable software solutions.
- **Part-Time Full-Stack Developer, Turkish Technology** (Oct 2025 – Aug 2026)
  - Built full-stack web applications with Java Spring and Vue.js alongside university studies.
  - Promoted to full-time Junior Associate Software Developer in August 2026.
- **Software Developer, RiskOptima WealthTech Corp.** (Jul 2025 – Oct 2025)
  - Developed algorithmic trading strategies and machine learning models for financial markets in Python.
  - Built automated trading systems and risk-management algorithms for wealth-management workflows.
  - Backtested strategies for performance and risk metrics; started as an intern, promoted to Software Developer.
- **Blockchain Developer, SuiCityP2E** (Aug 2024 – Jul 2025)
  - Developed a play-to-earn blockchain game end to end with React, TypeScript, Node.js and MongoDB.
  - Wrote Sui Move smart contracts for in-game mechanics, transactions and on-chain asset ownership.
  - Owned the DevOps pipeline: deployment automation and infrastructure management.
- **Freelance Full-Stack Developer** (Sep 2022 – May 2024)
  - Delivered frontends and Solidity smart-contract integrations for blockchain NFT projects.
  - Shipped responsive, cross-browser NFT minting dApps; worked directly with clients to scope and deliver.

Skills

- **Languages:** Python, Java, C, C++, C#, TypeScript, JavaScript, Solidity, Sui Move
- **Frontend:** React, Vue.js, Next.js, three.js, Tailwind CSS, HTML/CSS
- **Backend & Data:** Node.js, Java Spring, Spring Boot, Django, MySQL, PostgreSQL, MongoDB, Supabase, SOAP Web Services
- **Infra & DevOps:** Docker, GitHub Actions, Cloudflare, Hetzner, Coolify
- **Other:** Machine Learning, Unity, Adobe Premiere Pro, After Effects, Photoshop
